EDUCATION

Indian Institute of Information Technology, Bhopal

August 2024 - June 2028

Bachelor of Technology - Computer Science and Engineering (Artificial Intelligence)

Relevant Coursework: Deep Learning, Transformers, GPT Architecture, Generative AI, Agentic AI, RAG, Object-Oriented Programming.

PROFESSIONAL EXPERIENCE

PhotoGPT (TAIC LLC) | Generative AI Intern

March 2026 - June 2026

Generative AI Internship | [Experience & Recommendation Letter](#)

- Worked with 10+ Generative AI platforms for AI image/video generation, prompt engineering, creative automation, and AI-assisted content production.
- Created 300+ AI-generated visual assets, including images, videos, advertisements, thumbnails, product showcases, and social media creatives.
- Supported AI-powered campaigns that collectively generated 10M+ views across Instagram and Threads.
- Optimized prompts and benchmarked newly released AI models to improve output quality, creative consistency, and workflow efficiency.

Podysey (Startup), Bhopal

August 2025

Core Member

- Contributed to content creation and community initiatives in a student-led startup, using GenAI tools to improve creative output and productivity.

NIIMACK Fest, IIIT Bhopal

April 2025

Creative Lead | Documentary

- Edited and produced the official fest documentary with VFX, color grading, video editing, and narrative storytelling.

ACADEMIC PROJECTS

Mistella — AI Workspace | Full-Stack GenAI Project

[Live Demo](#)

Python, FastAPI, LangGraph, LangChain, Groq, Gemini, RAG, FAISS, React/Vite, PostgreSQL/SQLite

- Built Mistella, a full-stack AI workspace unifying LLM-powered chat, conversational memory, multimodal image understanding, document-based RAG, and research capabilities into a single interface.
- Engineered a FastAPI backend with LangChain and LangGraph orchestration for persistent conversation threads, real-time Server-Sent Events (SSE) streaming, and multimodal chat handling.
- Designed a RAG pipeline using PDF parsing, chunking, embedding generation, FAISS vector search, and BM25 retrieval for context-aware, document-grounded question answering.
- Integrated Groq and Google Gemini for high-speed LLM inference and multimodal reasoning; developed REST APIs for chat/streaming, conversation management, image/PDF uploads, document indexing/retrieval, and health monitoring, backed by PostgreSQL/SQLite and deployed the modular React/Vite frontend on Vercel with automated Git-based CI/CD.

Healthcare Data Classification using Artificial Neural Network

[GITHUB](#)

- Developed a PyTorch binary classification model to predict breast cancer diagnosis from medical data.
- Implemented a 3-layer ANN architecture (30 -> 16 -> 8 -> 1) with ReLU hidden layers and sigmoid output.
- Trained with binary cross-entropy loss and SGD for 200 epochs, achieving 99.12% test accuracy.
- Validated results using scikit-learn metrics and visualized training progress with Matplotlib and Seaborn.

Student Academic Success Predictor - Machine Learning project

[GITHUB](#)

- Built a logistic regression pipeline to predict student pass/fail outcomes from academic data.
- Improved robustness on imbalanced data using SMOTE and class-weight optimization.
- Evaluated model performance with classification report, confusion matrix, and ROC analysis.

ACHIEVEMENTS

- Designed the official logo for IIIT Bhopal Alumni Reconnect Cell, strengthening the college's alumni engagement and visual identity.
- Built a web-based app demo as part of a team at Hack-O-Sprint, IIIT Bhopal Internal Hackathon, showcasing practical problem-solving and web development skills.

SKILLS

Programming Languages: Python, C/C++, HTML/CSS.

Development Tools: Git, GitHub, VS Code, Jupyter Notebook, ChatGPT, Claude, Gemini, Perplexity, Grok, ComfyUI.

Frameworks and Libraries: PyTorch, scikit-learn, LangChain, LangGraph, Advanced RAG, Hugging Face Transformers, Pandas, NumPy, Matplotlib, Seaborn.

Databases: SQL (basic), vector stores for RAG.

Operating Systems: Linux (Ubuntu), Windows.

Relevant Coursework: DSA, OOPs, DBMS, OS, Computer Networks.

Soft Skills: Problem-Solving, Creativity, Teamwork, Communication, Adaptability, Time Management.
